Financial Education Presentations

“Within very wide bands, more money doesn’t make people happier. Learning how to think about money though usually does” – Seth Godin

From time to time we all find ourselves looking for the right answers. To find the right answers we have to ask the right questions, starting with: Do you have goals, dreams and aspirations, what are they and what will help you achieve them?

When it comes to financial matters an honest answer will help you to obtain the motivation to save. Looking for answers in the wrong place can be a real threat to your financial wellbeing.

To provide some guidance to you, various member education presentations will be held on all campuses, as indicated below. These sessions aim to add to your financial knowledge and to provide you with a few practical guidelines in your everyday financial life.
